SKILLS

- **Programming Languages** : Java , Python , JavaScript , C++ , C#
 - **Core Skills** : DBMS , DSA , OS , OOP , Software Engineering
 - **Web Development** : Spring MVC , SpringBoot , REST API , Django , .NET Framework , Bootstrap
 - **Databases** : MySQL , Oracle , MongoDB , phpMyAdmin
 - **Tools** : Git , GitHub , Postman
 - **Soft Skills** : Teamwork , Problem-Solving , Leadership , Communication , Critical Thinking
-

PROJECTS

- **Book-Nest** | Java , Spring Boot , Spring MVC
Developed a Library Management System using Spring Boot, JPA, and PostgreSQL featuring RESTful APIs, MVC architecture, and Spring Security. Implemented complete CRUD operations for managing books, students, authors, and library transactions with proper layered architecture.
 - **Hostel Management System** | PHP , MySQL
Built a PHP/MySQL web application with dual user roles (Admin/User), featuring student record management, room booking system, payment tracking, and responsive interface using HTML/CSS/PHP with MySQL database backend.
 - **Estate Hub** | Django , SQLite
Developed a comprehensive Django-based web application for real estate property management with role-based access control (Admin, Seller, Buyer). Implemented features including property listings, user reviews, favorites system, and inquiry management with a responsive HTML/CSS frontend and SQLite database backend.
